

Bryte & Broderick Community Action Network

What is BBCAN and What do we do?

Our Mission

The Bryte and Broderick Community Action Network (BBCAN) implements and supports programs and projects to meet the aspirations of our diverse community by working with the City, non-profit and faith-based organizations, schools, and businesses toward sustaining a healthy, informed, and engaged community.

Our Goals

- To listen to Bryte and Broderick voices and help them open doors to solutions.
- To encourage Bryte and Broderick residents to take an active part in their community's future
- To establish collaborative projects and programs that will enhance the educational opportunities, the environment, and the services available to the Bryte and Broderick community.

What does this mean?

It means collaboration, information and participation.

We collaborate with the City and community groups to assist them in reaching out and providing support, services and events for West Sacramento.

We proactively provide information to the community about how they can get involved and have a voice.

We engage the residents in BBCAN meetings, workshops, activities and celebrations.
